Welcome - HPE iLO Advanced Trial License

This license provides intelligent, remote functionality without compromise for HPE servers in your enterprise environment. It fully implements iLO Federation features such as Group Firmware Updates, Group Virtual Media, Group Power Control, Group Power Capping, and Group License Activation. It also enables you to activate the enhanced Integrated Remote Console, as well as virtual keyboard, video, and mouse (KVM), multi-user console collaboration, advanced security, power management functionality, HTML 5 support, and many other advanced features.

For details about iLO license features and supported servers, visit our features and supported servers matrix at <http://www.hpe.com/support/iLO-LicenseMatrix-en>.

IMPORTANT Notice from Hewlett Packard Enterprise - Please Read

This HPE Free Evaluation Key is for your express use and restricted by the Terms of Service agreed to upon registration. The intended use is to evaluate the iLO licensed features for the 60-day evaluation term. You may not distribute, sell, provide, share, sublicense, or otherwise transfer this license.

For more information about HPE iLO Licensing, review our [iLO licensing guide](#).

License Key

332N6-VJMMM-MHTPD-L7XNR-29G8B

Installation Instructions

- 1. License key:** You will receive a one-time key per server, also known as a 5-by-5 key (xxxxx-xxxxx-xxxxx-xxxxx).
- 2. Installation:** Log in to iLO and locate the **Licensing** page. Apply the 5-by-5 key to unlock all the great iLO licensed features. No need to download anything!
- 3. Trial license key expiration:** The free trial license key expires 60 days from the time you obtain your key from Hewlett Packard Enterprise.
- 4. Additional installation information:** Visit our [Installation Guide](#).
